

■ ABOUT ME

I care deeply about frontend architecture that is simple, elegant, and scalable. Using **clean component design**, **reactive state management**, and **efficient data-fetching patterns** to reduce complexity, improve maintainability, minimize bugs, and keep applications fast and responsive.

Senior Frontend Developer

Frontend Developer

- Frontend development in Angular (v15) - migrating legacy code into Angular components.
- Frontend development in Vue.js (2) - migrating legacy code from .net to Vue.js components.

LWC Developer

- FrontEnd development building SalesForce apps in LWC (Angular equivalent).
- Some side work in Apex (Java equivalent).

Private Tutor

- Math and Science tutoring (5th to 12th grade).

Bachelor in Computer Sciences

2017–2020: Licenciatura em Engenharia Informática at **Faculdade de Ciências da Universidade de Lisboa**, with a grade of 17 (out of 20).
Academic Merit Diploma

Angular

Angular Signals

Vue.js
